**PHONETREE ANNOUNCES SAGE SOFTWARE HEALTHCARE, INC. TO DELIVER
PHONETREE AUTOMATED PATIENT MESSAGING SOLUTION**

PhoneTree chosen as exclusive provider of automated patient messaging

WINSTON-SALEM, NC. May 15, 2007 – PhoneTree® announces today that it has been chosen by Sage Software Healthcare, Inc. as its exclusive provider of automated patient messaging in conjunction with Sage Software healthcare-focused products.

PhoneTree is the innovative leader in automated patient communication and is headquartered in Winston-Salem, NC. The companies will work together to provide unique PhoneTree messaging to customers of Intergy by Sage, MedWare by Sage, The Medical Manager by Sage and Practice Analytics by Sage.

“We have been working with PhoneTree for many years,” said Mark Phillips, Director of Product Management for Sage Software practice management systems. “We are thrilled about the expanded opportunities that are expected to arise over the next several months.”

“We are very excited about providing PhoneTree patient messaging systems to Sage Software Healthcare, Inc. customers. We know that automated messaging is an important and essential tool in today’s medical practices. It is an effective, efficient way for a practice to engage its patients. At PhoneTree we know whether it is doctor-patient communication, working directly with a customer or an agreement between two companies, it’s all about the relationship,” said A. J. DiBianca, President and CEO of PhoneTree.

About PhoneTree

Since 1989, Personal Communication Systems has manufactured and sold high quality PhoneTree automated messaging systems to a wide variety of organizations. PCS currently has over 40,000 systems that are being used by churches, faith-based organizations, medical and dental practices, civic organizations, libraries, schools, businesses of all sizes and many government agencies. All PhoneTree systems are proudly designed and manufactured in the United States.
